FINAL PROGRAMME FOR 9TH ALICE AND ALBERT NETTER DAYS OF THE EUROPEAN SOCIETY OF GYNECOLOGY

1 - 3 November 2018
Tallink Hotel Riga, Latvia

The Latvian Society of Gynecological Endocrinology is honoured to organize this event in partnership with the European Society of Gynecology in Riga, Latvia.

The Scientific Program of the Meeting will be based on the aims of the ESG: the widening of the contacts between the specialties of medicine of the reproduction of the various European countries, the promotion and diffusion of the clinical and biological research.

The 9th Alice and Albert Netter Days of the European Gynecological Society offer a diverse and updated scientific program in the field of gynecology and gynecological endocrinology. The scientific program is focused mainly on the practical aspects of the problems encountered on a daily basis by doctors.

The theme of the meeting will be the life course approach to a woman's health from childhood to menopause. In this event we would like to give doctors and scientists from different countries an opportunity to discuss important questions to find common views about a woman's health. We look forward to you taking active part in this meeting of a woman's health. Please, book the date in your diary now and we hope to see you in Riga in November 2018.

12:15 - 12:45

Prof. Johannes Bitzer, CH / Pain Instead of Pleasure - the Vulvodynia Curse

13:00

Closing Ceremony

TOPICS FOR ABSTRACTS

1. Gynecological Endocrinology

- 1.1 Regulation of the HPA axis
- 1.2 FSH and LH receptors
- 1.3 Hyperprolactinemia
- 1.4 GnRH analogues and antagonists
- 1.5 Steroids and steroid receptors signaling mechanisms
- 1.6 Biological actions of progestins
- 1.7 Androgens and hyperandrogenisms
- 1.8 Primary and secondary amenorrhea
- 1.9 Polycystic ovary syndrome
- 1.10 Insulin resistance
- 1.11 Obesity, metabolic syndrome and women's health
- 1.12 Pediatric and adolescent endocrinology
- 1.13 Thyroid diseases
- 1.14 Endocrine disorders and women's health
- 1.15 Endocrine disruptors
- 1.16 Selective steroid receptor modulators

2. Contraception

- 2.1 New compounds for contraception
- 2.2 Non - contraceptive benefits of contraceptives
- 2.3 Male contraception
- 2.4 Emergency contraception
- 2.5 Medical and surgical abortion
- 2.6 Intrauterine contraceptives
- 2.7 Contraception and adolescents
- 2.8 Contraception and perimenopause
- 2.9 Therapeutic uses of hormonal contraceptives
- 2.10 Long lasting contraception

3. Medically Assisted

- 3.1 Embryo implantation and development
- 3.2 Stem cells and human reproduction
- 3.3 Mechanisms of follicle selection and development
- 3.4 Reproduction, the Immune system and oxidative stress
- 3.5 The infertile couple
- 3.6 Techniques in medically assisted procreation

- 3.7 Ovulation induction
- 3.8 Ovarian hyperstimulation
- 3.9 Endometriosis and assisted reproduction
- 3.10 The anovulatory patient
- 3.11 Endocrine disorders and medically assisted procreation
- 3.12 Adnexal diseases and medically assisted procreation
- 3.13 Fertility preservation
- 3.14 Autologue and heterologue donation

4. Gynecology

- 4.1 Stem cells in gynecology
- 4.2 Angiogenesis and gynecological diseases
- 4.3 Puberty and adolescent gynecology
- 4.4 Female sexual function and dysfunction
- 4.5 Sexually transmitted diseases
- 4.6 Hormones and gynecological disorders
- 4.7 Endometrial regulation
- 4.8 Abnormal uterine bleeding
- 4.9 Pelvic pain
- 4.10 Endometrial hyperplasia
- 4.11 Endometriosis: genetics and hormones
- 4.12 Medical treatments for endometriosis
- 4.13 Uterine myomas, medical and surgical management
- 4.14 Clinical management of simple adnexal cysts
- 4.15 Vulvar and vaginal lesions

5. Menopause and Ageing

- 5.1 Steroid hormones and ageing
- 5.2 Neurotoxicity, neuronal survival and hormone protection
- 5.3 The climacteric syndrome
- 5.4 Menopause, HRT and cardiovascular disease
- 5.5 Menopause, HRT and cancers
- 5.6 Menopause, HRT and neurodegenerative diseases
- 5.7 Postmenopausal osteoporosis
- 5.8 Selective estrogen receptor modulators SERM's
- 5.9 Androgen therapy
- 5.10 Non - hormonal treatments for climacteric women
- 5.11 Sexual health and dysfunction

CALL FOR ABSTRACTS

Rules for Abstract submission

- Deadline for abstract submission is 30 September 2018.
- Each person is allowed to submit a maximum of two abstracts as presenting author.
- There is no limit to the number of abstracts submitted as coauthor.
- Presenting authors will be notified whether their abstracts are accepted by 22 October 2018.

REGISTRATION FEES (EUR)

	UNTIL 23.09.2018	AFTER 23.09.2018
Participant from Baltic states (EE, LT, LV)	120.00	200.00
Participant	150.00	220.00
Resident	100.00	120.00
Student, PhD Student	60.00	100.00

Fee is inclusive of entrance to all Scientific sessions, industrial exhibition, coffee breaks, lunches, dinner, Welcome reception and the certificate of attendance.
